

## **Environmental Policy Statement**

Chichester Stoneworks Ltd. recognises the inherently sustainable nature of our business both in new build and repair.

**In the execution of its business the Company shall at all times ensure that:**

- We will ensure environmental priorities are integrated into our business decisions and regularly reviewed to ensure the environment is safeguarded
- Methods of managing environmental issues are continually measured, monitored and improvements introduced
- Our purchasing activities respect the highest environmental and ethical standards.

The Company recognises the fundamental importance of an awareness of its activities that may have a detrimental effect on the environment, and will use its best endeavours to avoid this through training and continual improvement.

**Chichester Stoneworks is committed to safeguard the environment by:**

- Avoidance of pollution, through effective methods of control in our workshop, during transportation, installation and disposal
- Achieving as a minimum all the necessary regulatory consent and industry requirements applicable to our business activities both now and in the immediate future
- By giving special consideration to the environmental impacts of our activities namely water and energy use. Establishing an effective monitoring regime to record water and energy use ensuring all new systems are efficient and recycling is continuously maximised
- To provide the resources and training to ensure that our staff can manage environmental issues correctly in both normal and abnormal situations
- Encourage staff to develop a sense of responsibility and understanding for the environment by actively developing environmental awareness
- Employing effective waste management practices and procedures
- Establishing and monitoring continuous improvement targets across the company.

The Board is responsible for the execution of this Policy; it will endeavour to ensure compliance through a system of regular reviews.

Adam Stone  
**Managing Director**
